

LICENSING PORTFOLIO

ABOUT THE ARTWORK

LICENSING INFORMATION

My artwork blends whimsical storytelling, magical creatures and emotional symbolism. I specialize in character-driven illustrations with a warm, hand-drawn touch. My work is ideal for greeting cards, stationery, children's products and themed collections.

This portfolio presents a curated selection of my artwork. Many more illustrations, collections and themes are available upon request. All artworks can be adapted, recolored, or expanded to suit specific product needs, including simplified versions for greeting cards and stationery. Additional collections such as patterns and coloring book pages are also available.

I offer artwork in both **high-resolution raster** and **vector formats** (where applicable). Some artworks can be reworked into vector format upon request.

Additional collections, characters and themes are available to review on:
